Thompson Prosthesis

Key Features

- Premium orthopedic-grade stainless steel construction.
- Anatomically designed stem for secure fixation and optimal load transfer.
- Precision-polished femoral head for low-friction articulation.

Product Benefits

- Delivers excellent mechanical strength and corrosion resistance.
- Promotes early patient mobilization and functional recovery.
- Provides consistent surgical outcomes with long-term durability.

Indications

- Displaced femoral neck fractures.
- Hemi hip replacement.
- Elderly patients requiring stable hip reconstruction.

BI-Polar Prosthesis

Key Features

- Advanced dual articulation design to minimize acetabular wear.
- Modular system with multiple head and stem size options.
- Premium orthopedic materials with superior wear resistance.

Product Benefits

- Enhances joint stability and increases range of motion.
- Reduces pain and improves postoperative mobility.
- Extends implant longevity through reduced friction and wear.

Indications

- Femoral neck fractures.
- Hemi hip arthroplasty.
- Active elderly patients requiring improved hip function and reduced acetabular wear.
